## BUSHING TOOL KIT

### IMPORTANT SAFETY INSTRUCTIONS.

Thank you for purchasing this piece of NIKE equipment. Please read the following safety instructions, to ensure the best use and longest service life for the equipment.

Keep these instructions and other applicable NIKE manuals during the life of the equipment and make sure they are available for all personnel that install, use and maintain this equipment.

Before commencing work with this equipment, the operator should wear all personal protective equipment recommended by his/her company and should wear safety glasses/visa at all times.

Read all relevant operating and safety instructions provided with these kits prior to use. NIKE Hydraulics AB is not responsible for any personal injury or machine damages that can occur if these instructions are not followed.

Never allow unauthorized personnel to use the equipment.

**Ensure that the maximum rated loads for the screw rods provided are not exceeded, as stated on the cylinder, and in the box. These are:**

M12 rod: max load 6 ton.  
M16 rod: max load 10 ton  
M20 rod: max load 16 ton  
M24 rod: max load 23 ton  
M30 rod: max load 36 ton  
M36 rod: max load 52 ton  
M48 rod: max load 70 ton

Never tamper with the safety valve setting in the hydraulic pump.

Ensure threads are clean and free from dirt at all times. Never use rods that are bent or have damaged threads

Ensure cylinder, rod, adaptors, and bush, are aligned as accurately as possible before applying full stated maximum loads.

Never stand in line with application when applying force to the equipment.

Ensure no unauthorized personnel stay within the risk area when the equipment is in use.

Never leave the working area with the equipment loaded.

Always use a genuine NIKE power source to operate the kit equipment.

Maintenance should be made by authorized service workshop

NIKE Hydraulics AB is not responsible for any personal injury or machine damages that can occur due to use of not approved or rebuilt equipment.

Pressure & load gauges can be provided as optional extras on request.

Date: June 2004.
